Dear Mr. Boswarva,

With reference to your emails regarding our response to your request reference NRFEB42.

We now have the following information for you from our Warning and Information, Flood and Coastal Risk Management Team –

‘Attached is the flood warning area data which was collated on 09/03/2015.

Please note:

- The Flood Warning Area Statistics spreadsheet contains information on both fully registered properties and properties included within extended direct warnings – a full explanation is available on the first tab of the spreadsheet.
- Data is only included for flood warning areas within England.
- There may be a slight discrepancy between this data and the ‘registrations per flood warning area’ data included in our last email to the customer, this is purely because the information was downloaded from the offline reporting database at different times.

This dataset hasn’t been reviewed to be released under Open Government Licence so is issued with our Standard Notice, however we will submit it for internal review with a view to releasing as Open Data.’

Kind Regards

Jill Rhodes
