

## Reservoir Flood Map Maximum Flood Outline (Extent) (AfA113)

### Dataset Description

Data layer showing individual reservoir flood maps for 2,092 Large Raised Reservoirs including attributed data. Individual reservoirs may have up to 5 flood maps associated with them, based on separate breach locations. The data shows the maximum extent of flood should the reservoir be breached, although the location of the reservoir can be inferred it is not explicitly shown on the maps.

**Price Category: Medium**

Attribute Name	Attribute Description
Shapefile	Polygon British National Grid
Reference Number	EA unique reference number for each reservoir. Required as the reservoir name is not necessarily unique.
Name	Reservoir Name
Location	Reservoir Location – will be the grid reference of the first breach point modelled.
Undertaker	Name of the person/body with legal responsibility for the operation of the reservoir.
Local Authority	Local authority within whose boundary the reservoir is located and who is therefore responsible for developing emergency plans.
EA Area	EA Area within whose boundary the reservoir is located.
